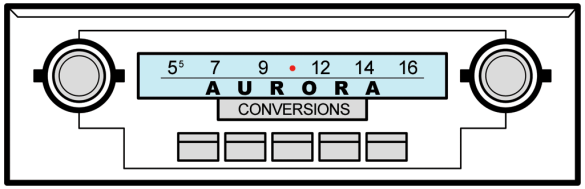
Aurora Design BTC Standalone Quick Start Guide



Bluetooth Pushbutton Actions

Pair/Voice Command
Conference Call

Pause/Play Music
Mute/Unmute Call

Next Song
Accept Call

Previous Song
Reject/End Call

Toggle Announcements*

Factory Reset **

Quick press | Press 1 second | Press & hold

* Performing this action will toggle whether automatic Connect/Disconnect announcements will be made when the phone automatically reconnects to the radio. Normal announcements such as Pairing are always enabled. A rising tone when performing the action indicates announcements are enabled while a descending tone indicates announcements are disabled.

** Immediately after turning radio on, press and hold button for 12 seconds. All Bluetooth settings will be reset including all paired devices.

This Guide is only for the BTC-3.2 when not used in an Aurora Design FMR-3.2 radio.
